LOMBARDY REGION

LOMBARDY REGION

Area	23,844 km ² (9,206 sq mi)
Population	10,020,838
Density	420/km ² (1,100/sq mi)
Total GDP	€440 billion (2022)
GDP per capita	€44,000 (2022)

THE LIFE SCIENCE ECOSYSTEM

THE VALUE CHAIN

Represents **12,6%** of Lombardy total GDP

10,1% of GDP in Italy

346,153 employees: 18.3% of the national figure

THE ENTERPRISES

Share of domestic added value **52.3%**

The health services sector in Lombardy generates **18.3%** of added value

PHARMA

262 pharma local units with over 30,000 employees (34% of the national figures)

560 million € investments in R&D: 12% of the national investments of this sector

With an **export value** of 9.8 billion €, 20% of the national value of pharmaceutical exports

MEDICAL DEVICES

1,401 companies (over 1/3 of the national figure)

51,747 employees: 44% of the sector's total national employment value

A national market accounting to **5.9 billion € in exports**, which represents 47.6% of the national medtech market value

RESEARCH

Over 7.000 researchers

+40 Research Centers and a national Life Science Technopole

19 I.R.C.C.S (Research Hospitals) – 36% of national I.R.C.C.S. – with Over 33.000 of Impact Factor

50% of national clinical trials

THE UNIVERSITIES

332,171 students belong to the University network

15 Universities: 7 with medical faculties

CLUSTER LOMBARDO SCIENZE DELLA VITA

THE CLUSTER

Cluster lombardo scienze della vita is the community dedicated to Life Science in the Lombardy Region. It brings together all public and private entities - research, industry and clinics - active in every sector of the Life Science space.

MISSION

Committing every resource so that the community of the Cluster may contribute to creating a **virtuous ecosystem**, an expression of **the public-private collaboration** that makes the Lombardy region a **hub of excellence for research and innovation**.

VISION

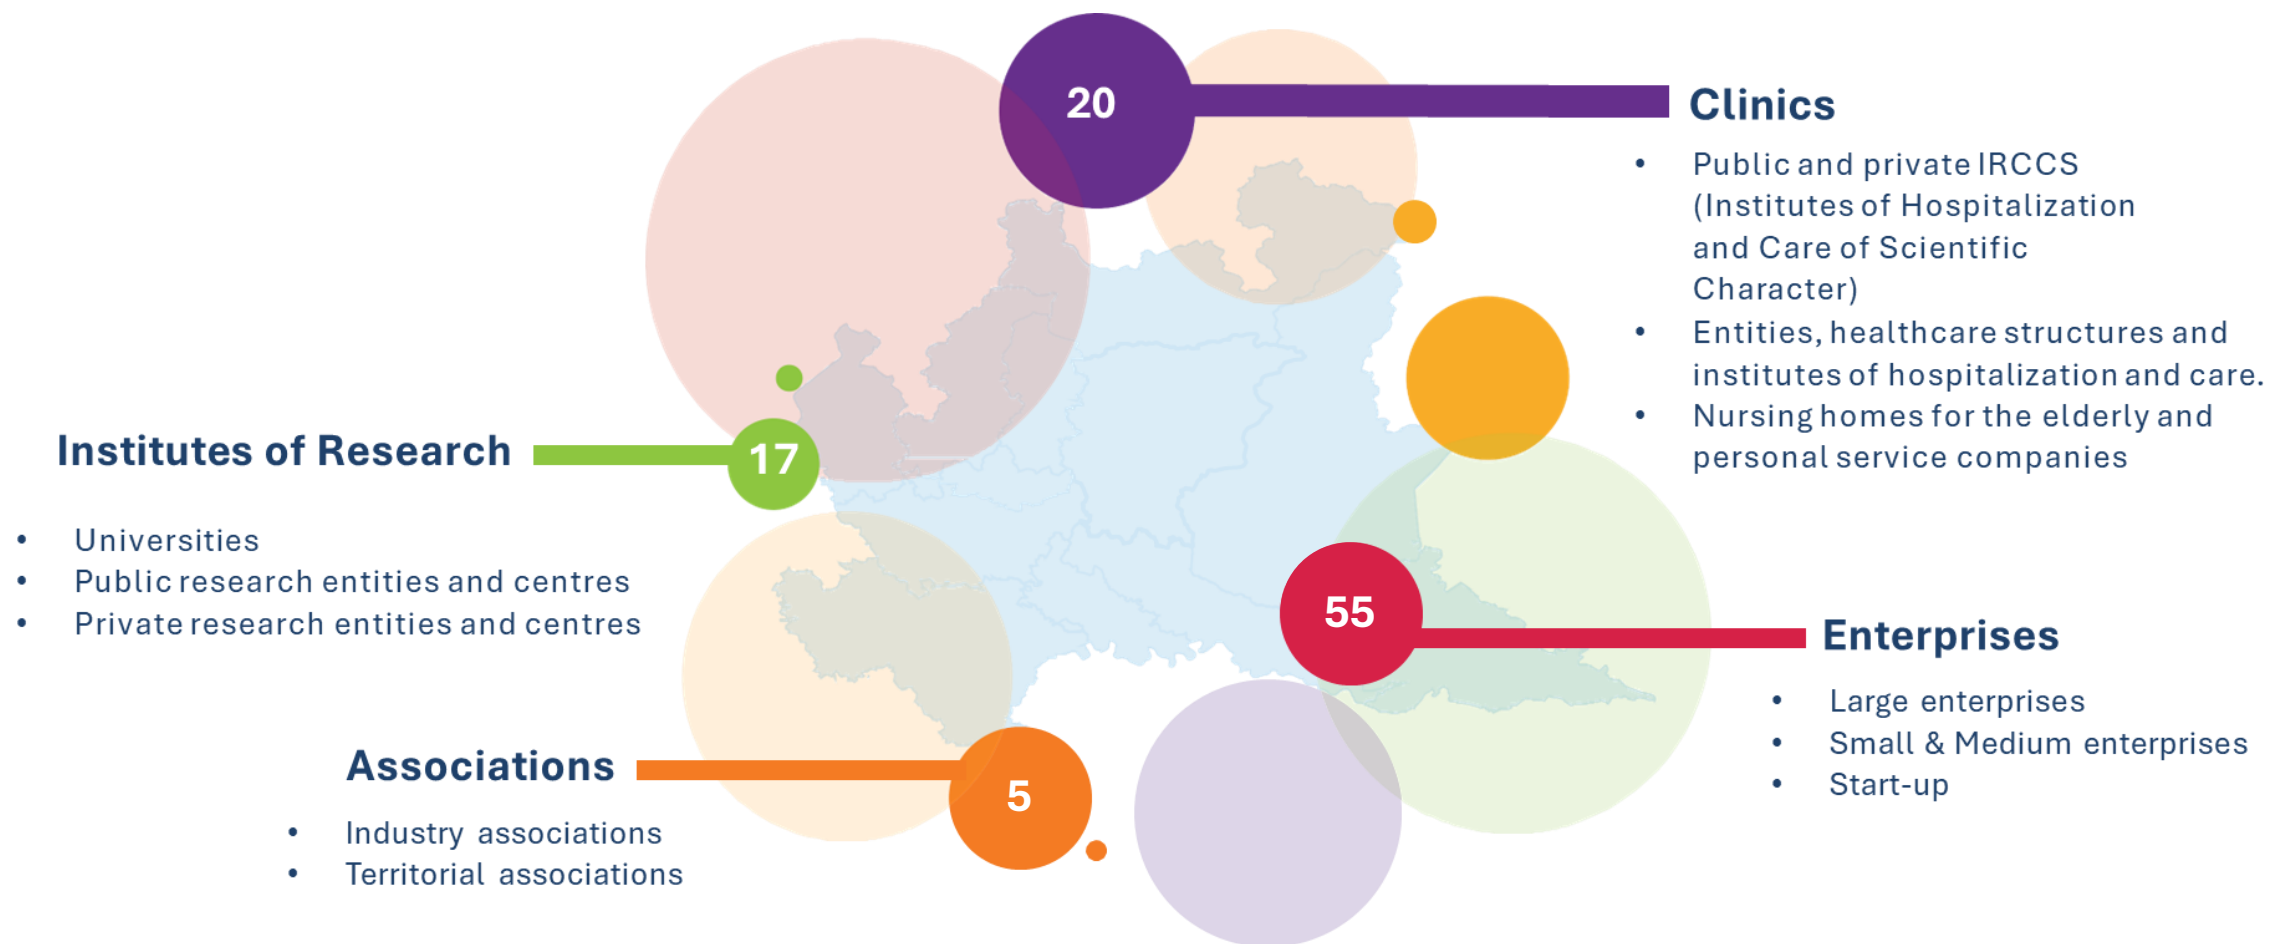

Contributing to increasingly **make Lombardy** one of the European regions at the forefront of life sciences, a **pole of attraction for Italian and foreign realities**.

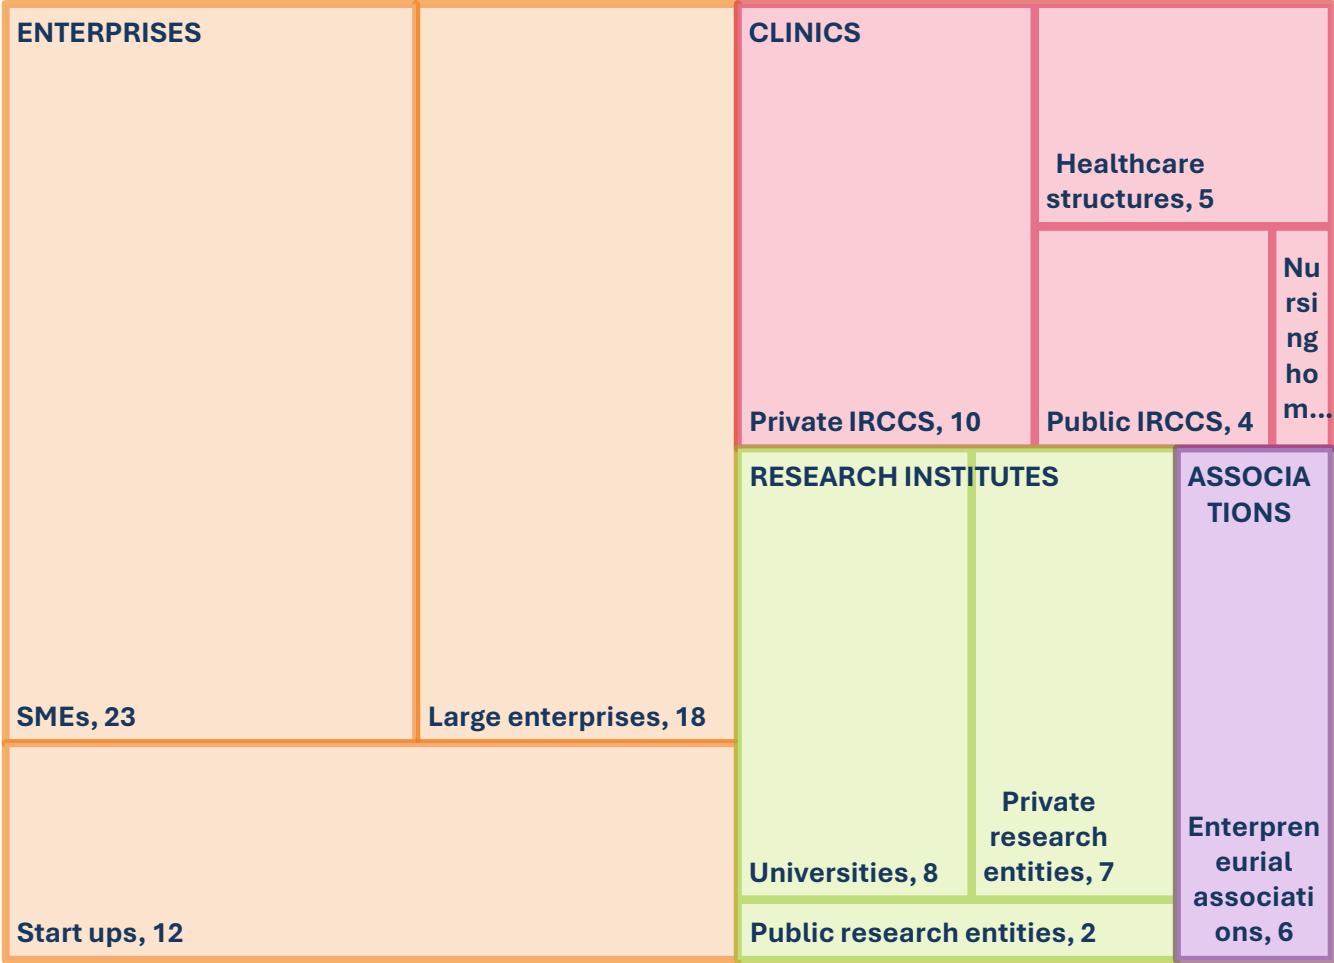

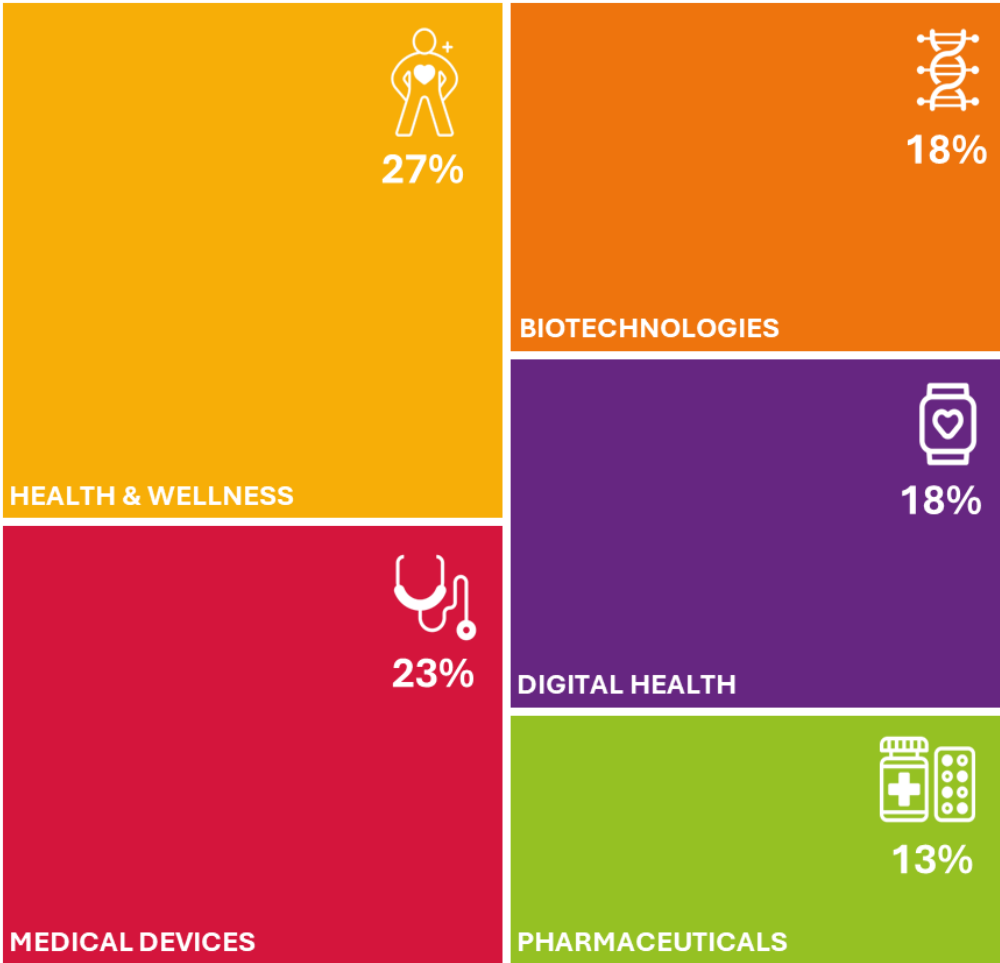

ACTION

Make ourselves available to any entity engaged in generating innovation in the life sciences sectors, **fostering connections and synergies** to ensure constant improvement of mutual activities and business opportunities.
